There is no OHIP coverage for these services.

If you should have supplementary insurance, please let us know. We can bill your private insurance for you, and they may pay your claim directly to us. We will bill your insurance the same as we would bill you and accept this as our authorization to do so on your behalf. Should you decide to submit your own claims we will cease billing from then forward.

Chiropractic services are fully covered under the Workman's Safety and Insurance Board (WSIB) and Motor Vehicle Accident (MVA) insurance when the claim has been accepted. If the WSIB, MVA or any other insurance company denies a claim, the patient is then responsible for payment.

You may choose to enter into a treatment program and receive a discount for the block of treatment. The doctor will go over this with you.

I have read and fully understand and agree to the above fee schedule.
